

Hypnotherapist's Financial Calculator

Step #1: How Much Money Do You Want Per Month?

How much money do you WANT each month in order to live a good lifestyle? Be sure to include your expenses, money into your savings account or retirement fund, money for holidays, and of course money for taxes at the end of each year.

\$ _____ /month

Step #2: How Many Hours Do You Want To Work Per Month?

How many hours do you WANT to work in a week? Keep in mind that your sessions might be 2 hours each which means each client will be in your office for 2 hours per session.

_____ hours/week x 4 weeks = _____ hours/month

Step #3: How Much You Need To Make Per Session

Divide how much money you want per month by how many hours you want to work per month, and this will give you what you need to make per hour to make this a viable business for you.

\$ _____ /hour x 2 hours/session = \$ _____ /session

Step #4: How Many Sessions You Have To Give Per Month

Divide how much money you want per month by how you will charge per session, and this will give you how many sessions you need each month to make this a viable business for you.

_____ # of sessions/month / 4 weeks = _____ sessions/week

Step #5: How Many Clients You Need Per Month

Assuming you see each client for 6 sessions... divide your # of sessions per month by 6, and this will give you how many clients you need each month to make this a viable business for you.

_____ # of clients/month
